

SKILL 4

How do we use a written method to add numbers using our fingers?

Steps to success

- Place the largest number in your head.
- Count on the smaller number on your fingers.
- Record the answer as the number you reach.

To be able to add a single digit number to a single digit number and record the number sentence by counting on using our fingers.

10 11 12 13

$$5 + 9 = 14$$

14
