

SKILL 9a

How do we use a written method to add numbers?

To be able to add a two digit number and a two digit number using a landmarked number line.

Steps to success

- Write the largest number at the beginning of your number line.
- Jump on the tens of the other number.
- Count on the ones of the other number.

$$56 + 22 = 78$$

Record your jumps as you go.
