

St Nicholas and St Laurence CE VA Primary School

Science Overview

Year	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
Reception	Understanding of the World – linked to topics taught					
Year 1	Working scientifically Animals incl human	Working scientifically Properties of everyday materials	Seasonal changes Making observations		Working scientifically Plants and animals. Identifying and classifying	Working scientifically Plants and animals
Year 2	Working scientifically Everyday Materials	Working scientifically Plants	Working scientifically Habitats		Working scientifically Plants/Animals	Working scientifically Everyday Materials
Year 3	Working scientifically Animals, nutrition and skeletons	Working scientifically Plants Light	Working scientifically Forces		Working scientifically Plants Light	Working scientifically Properties of everyday materials
Year 4	Working scientifically States of matter Animal adaptations	Working scientifically Teeth types, tooth decay and hygiene Digestive system Animals incl humans	Working scientifically Electricity		Working scientifically Living things and habitats	Working scientifically Sound
Year 5	Working scientifically Properties and change of materials	Working scientifically Forces Earth and space	Working scientifically Forces		Working scientifically Plant reproduction and life cycles Lifecycles of mammals, amphibians, insects and birds	Working scientifically Animals incl humans Living things and their habitats
Year 6	Working scientifically Light and shadows The eye	Working scientifically Electricity; Investigating circuits	Working scientifically Living things and their habitats		Working scientifically Animals incl humans – circulatory system	Working scientifically Evolution and adaptation
